About me

I am a motivated specialist eager to start my IT career in UX/UI design or other entry-level roles. I have a UX design certification with skills in user research, wireframing, prototyping, and Figma. Currently, I work as a Sales Operations Specialist, where I have developed strong analytical and problem-solving skills. I'm excited to apply my creativity to real-world projects and am open to exploring new opportunities to learn and grow within a dynamic team.

Employment History

Jun 2022 — Present

Kaunas

Sales Operation Specialist at UAB "Festo"

Processed orders, quotes, and other documentation for Southern European countries using SAP S/4HANA software.

Jun 2018 — Sep 2018

Panevezys

Computer Operator at UAB "Biznio Kontaktai"

Created label layouts using CorelDRAW software.

Education

Mar 2024 — Jul 2024

"Coursera"

Google UX Design Professional Certificate

Completed a seven course program covering the UX design process, including user research, defining pain points, ideation, wireframing, prototyping, and high-fidelity design using Figma. Prepared for professional roles in UX design.

Portfolio

EuroTravel App - UX/UI Design

[View my project on Behance](#)

Designed a mobile app for seamless travel planning across Europe, focusing on intuitive navigation and user-friendly booking processes.

Thermostat Design - UX/UI Design

[View my project on Behance](#)

Designed a modern thermostat interface with a dark background, emphasizing clear temperature display and intuitive controls. Focused on user-friendly access to additional data like outdoor temperature, humidity, and air quality with minimal buttons for easy mode switching.
